W64 - WHI LLS Phase III Eligible Participants

AA/Hispanic Participants

	N
All AA/Hispanic participants consented to MRC	8606
Already selected for LLS Phase I or II	-7356
Remaining:	1250
Exclude if not eligible for dbGap	-364
Exclude if dead/out of country/other	-150
Total # participants with any of above exclusion	-506
Remaining	744
Exclude if not enough DNA, serum and EDTA *	-405
Final number eligible	339

*Not enough DNA: 352; not enough serum: 19; not enough EDTA: 50. 299 have serum and EDTA but not enough DNA. (DNA requirement: Pico (no salt), Parent vials with $\geq 5\mu\text{g}$ @ 50 ng/ml or a buffy vial)

White (EA) Participants

	N
All EA participants consented to MRC	13203
Already selected for LLS Phase I or II	-5225
Remaining:	7978
Exclude if not eligible for dbGap	-231
Exclude if dead/out of country/other	-407
Exclude if M13 case	-610
Total # participants with any of above exclusion	-1181
Remaining:	6797
Exclude if not enough DNA, serum and EDTA *	-271
Final number eligible:	6525

*Not enough DNA: 191; not enough serum: 6; not enough EDTA: 97. 172 have serum and EDTA but not enough DNA. (DNA requirement: Pico (no salt), Parent vials with $\geq 5\mu\text{g}$ @ 50 ng/ml or a buffy vial)

Select the oldest 1161 White participants from the eligible, using age on 8/1/2012 as current age. Sort list of 1161 participants by descending current age.

Final sample of 1500 participants:

Race/ethnicity

	N
White	1161
Black	264
Hispanic	75

Age distribution (age on 8/1/2012)

	Median (range)
White	85 (81-98)
Black/Hispanic	75 (64-95)
